APPROACH

We start with the **individual student** — finding where the gaps are, then rebuilding understanding from the foundations up. Every lesson pairs clear explanation with **exam-style practice**, so students learn not only the content but how questions are marked and what examiners and interviewers actually reward. We make it easy to ask the small questions, because those are usually the ones that unlock real confidence.

TUTORING EXPERIENCE

A-Level Tutor · Best Tutors 2022–2025

Small-group A-Level Maths, Further Maths, Physics & Chemistry. Built conceptual understanding and exam technique, tracking each student's progress and adapting sessions to keep improvement consistent.

A-Level Chemistry Tutor · Official Coaching Academy 2023–2024

One-to-one online lessons tailored to each learner, with structured objectives, worked examples and targeted exam practice, using regular recap to check understanding.

A-Level Tutor · Ilmbridge Academy 2025–2026

Delivered tailored one-to-one online lessons in Maths, Physics & Chemistry, building bespoke schemes of work around each student's syllabus and setting regular homework to reinforce exam technique between sessions.

RESULTS

- Took a student from a **grade E to a B** in A-Level Chemistry over six months — she had been at risk of leaving college, and has since progressed to a Russell Group university to study Pharmacy.
- Helped students from **disadvantaged backgrounds** reach grades matching — and in several cases exceeding — peers at selective sixth forms.
